Why We Are Making Some Noise

Dear Professional Colleagues,

When we chose the title for this edition, we wanted something with a little energy in it. October earned it.

For the first time, the ICAI family in the United States came together under one roof at the 1st ICAI International Conference – USA 2026, hosted by the ICAI Dallas (DFW) USA Chapter in Frisco and Dallas on October 24 and 25. I was proud to represent our chapter there, and prouder still to thank the volunteers and participants whose work made the conference a success.

The month began in Chicago. On October 2, the ICAI Ohio (USA) Chapter led a visit to meet Hon'ble Union Minister of Commerce & Industry Shri CA. Piyush Goyal, and to present a certificate of appreciation for his support to the ICAI fraternity across the globe.

We also kept our promise of learning together. On October 17, in alliance with the ICAI Michigan and Chicago Chapters, we hosted a webinar on Professional Ethics and the Ethical Use of AI, with CA. Charanjot Singh Nanda and CA. (Dr.) Amarjit Chopra, two Past Presidents of ICAI, and Dr. Reuben Buthello. Its message stays with me: AI can share the workload; it cannot share the responsibility.

Two days later, with the ICAI Michigan Chapter, Thomas W. Elkins and Jeremy J. Ventrone took members through real estate law and business financing in the USA.

I also had the privilege of speaking with CA. Satish Viswanathan about Munnetram, his mission to produce 1,547 Chartered Accountants from underprivileged backgrounds by August 15, 2047. True progress is measured by the doors we open for the next generation.

None of this happens without people. My sincere thanks to ICAI President CA. Prasanna Kumar D and Vice-President CA. Mangesh Kinare for their guidance; to the ICAI Dallas (DFW) USA Chapter for hosting the conference; to our friends at the ICAI Michigan and Chicago Chapters; and to every speaker, volunteer and member who joined us.

My vision for our global CA community is one of continuous growth, where we work together for a stronger, brighter tomorrow. November brings an NRI tax webinar on November 1 and the ICAI Midwest Meet & Greet in Toledo on November 21. Bring your families, and let's make some noise.

Warm regards,

Thomas W. Elkins presents "Three layers of protection behind a title", with participants on Google Meet

FROM THE SESSION

Promises, Policies and the Capital Stack

REAL ESTATE LAWS IN THE USA

Three layers of protection behind a title

Thomas W. Elkins

1 Deed covenants

The seller's personal promise. Present covenants: seisin, right to convey, against encumbrances. Future covenants: quiet enjoyment, warranty, further assurances. Only as good as the seller's solvency.

2 Owner's title policy

One-time premium; the insurer defends and pays covered losses for as long as you own. A lender's policy protects only the lender, so buy your own. 2021 ALTA forms are now standard.

3 Due diligence

ALTA/NSPS survey, zoning report, physical inspection and tenant estoppels catch what the record cannot.

"A warranty deed is a promise. A title policy is a balance sheet."

UNDERSTANDING COMMERCIAL DEBT UNDERWRITING

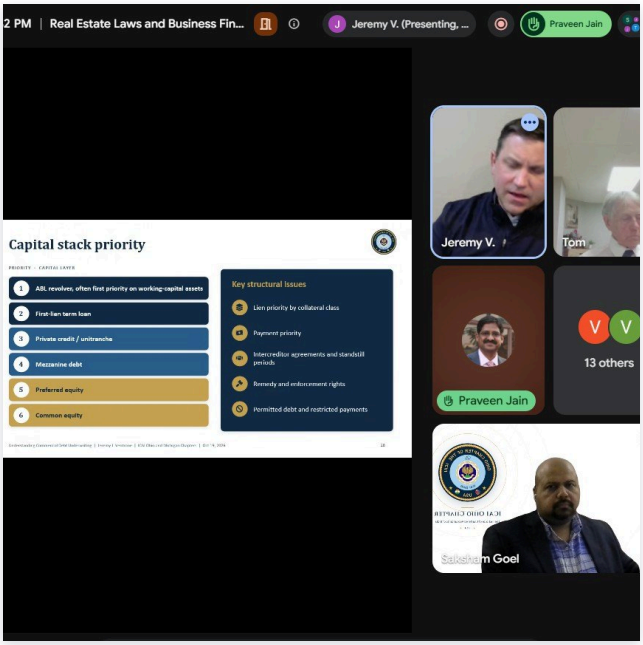

Capital stack priority

Jeremy J. Ventrone

1. ABL revolver, often first priority on working-capital assets
2. First-lien term loan
3. Private credit / unitranche
4. Mezzanine debt
5. Preferred equity
6. Common equity

KEY STRUCTURAL ISSUES

- Lien priority by collateral class
- Payment priority
- Intercreditor agreements and standstill periods
- Remedy and enforcement rights
- Permitted debt and restricted payments

Jeremy J. Ventrone walks participants through capital stack priority

WHY IT MATTERS FOR MEMBERS

Many in our community advise on, invest in or finance property and growing businesses on both sides of the world. Knowing how a US title is protected, and where each lender sits in the capital stack, turns a closing checklist into sound advice.

Empowering Dreams, Transforming Lives: The Munnetram Journey

CA. Satish Viswanathan, interviewed by CA. Siddhanta Goel, Founder Chairman, ICAI Ohio (USA) Chapter · October 24, 2026 · Click to watch

True progress is measured by the doors we open for the next generation. In an interview with our Founder Chairman, CA. Siddhanta Goel, CA. Satish Viswanathan spoke about Munnetram, meaning "progress": a mission to produce 1,547 Chartered Accountants from underprivileged backgrounds by August 15, 2047, the centenary of India's independence.

Non-stop teaching began on August 15, 2020, and the journey since has been a relentless commitment to education: 10 hours a day, across 14 subjects. The results are a testament to the resilience of the students.

More than 70 have cleared the CA Foundation in the last five years, and more than 30 have cleared CA Intermediate.

The commitment extends beyond Munnetram. Under a special MoU with the Government of Tamil Nadu, 85 government students were trained to enter India's top universities, with the teaching delivered remotely from the United States. Over the last three years, connecting with 30,000 commerce students across 150 schools has reinforced his belief in the potential waiting to be unlocked in finance and professional education.
